

"From the moment I left your last seminar, I've been on Cloud 9!!

I couldn't believe the practical information that was shared by so many experts. Change can be immediate and lasting if you just have the right tools."

M.R. - *(Parent of a 2nd grader at La Jolla Country Day)*

"Our sessions with DeepBlue Team Members taught us how to focus on the specific areas of our lives that needed to change. We now work through the challenges and the upsets - productively, creatively, and calmly.

What a difference DeepBlue's advice has made in our lives! We have a son who is in 5th grade. My husband and I were recently struggling with some of our son's behaviors that were very frustrating for us, for our son, and for his teachers. We did not have the tools to effectively deal with them in a productive manner. I highly recommend DeepBlue as a resource for any parent searching for a better way to help his/her child live a healthier life."

A.D. - *(Parent of 4th grader at Colony Meadows ES)*

"Your message fits perfectly with the mission of the YMCA, that of the whole person: mind, spirit and body.

A big thanks to you and your team for a wonderful and informative evening. It was a pleasure to host your team. We received only positive comments from the attendees regarding both the content and delivery of your seminar! We heard from several parents that this was a clear and concise presentation of material that would absolutely have a positive impact on the entire family. You touched on all the hot topics of today's challenging world for students and their parents with clear vision and regard for a constructive environment. Thank you for working with us. I look forward to working together with you and your team in the future."

P.B. - *(Director - La Jolla Firehouse YMCA)*

DeepBlue

practical solutions for raising extraordinary children

“This is one-stop shopping at its best!”

My children are certainly a priority, but with all that I have going on in my life, I don't have time to read a book on everything that my child is going through developmentally. With DeepBlue, I've found all the expert advice I need under one roof. A saving grace if there ever was one.”

K.H. - *(Parent of a kindergartner at S.D. Montessori School)*

“Your input and direction have effectively elevated the quality of life for our entire family.

Thank you once again for all of your help. You have made more of an impact than I would have believed feasible.” We are most grateful for your assistance.”

T.N. - *(Parent of 11th grader at La Jolla High School)*

“My children have become more productive as a result of DeepBlue's efforts.

DeepBlue can certainly be of help when homework and grades become an issue. From organizing the children's workbooks and desk areas, to having them become more aware of how important these things are. I would highly recommend this program.”

D.T. - *(Parent of 4th grader and 10th grader at Francis Parker)*

“...I have also been able to reflect on how I was parented, what I felt then, and what the outcome of that is now.

I can't thank you enough for teaching this wonderful course in a loving and nurturing atmosphere. The new parenting methods I learned have truly changed my life. They have changed me as a parent by enabling me to better understand what my daughter needs from me and how to really listen.”

B.R. - *(Parent of 7th grader at Muirlands Junior High)*
